

They are used to ensure that the elements coming after pump work safely. Therefore, pressure line filters should be mounted close to those elements which are intended to be protected. We produce filters which are suitable for operating pressure up to 420 bars and flow rates 330 l/min.

► Filter Code Type

Filtrax Hydraulic Series ————— FHS . 010 . M . XXXX . P / V

Filtration Rating

3, 5, 10, 20 = Microglass
25, 50, 75, 100, 150, 200 = Wire Mesh

Filter Media

M = Microglass
W = Wire Mesh

Size

Equivalent of Hydac, MP Filtri, Pall, Stauff, Filtrec, Donaldson, Mahle etc.

Type

P = Pressure

Supplementary Details

None = Standart
V = Viton Seal
